OUR PORTFOLIO

BEACON OF HOPE

Azumi Ladi Danat

EXECUTIVE DIRECTOR
Alda Foundation

Azumi Ladi Danat is the founder and chairperson of the Azumi Ladi Danat Foundation. A philanthropist and humanitarian activist, Azumi is passionate about touching the lives of the less privileged, aged, orphans, widows, and the physically challenged. Through this Foundation she has touched the lives of thousands of people, young and old, by providing free medical services to beneficiaries across Plateau State. Among her priorities are provision of empowerment materials as well as training of the Girl-Child. As a successful business woman, Azumi is widely-traveled and has attended several leadership and development trainings to further equip herself for positive impact on her society. She studied at the University of Jos and holds a Bachelor of science degree in Public Administration.

The Team –Our Board of Trustees

MRS AZUMI LADI DANAT

Azumi Ladi Danat is the founder and chairperson of the Azumi Ladi Danat Foundation. A philanthropist and humanitarian activist, Azumi is passionate about touching the lives of the less privileged, aged, orphans, widows, and the physically challenged. Through this Foundation she has touched the lives of thousands of people, young and old, by providing free medical services to beneficiaries across Plateau State. Among her priorities are provision of empowerment materials as well as training of the Girl-Child. As a successful business woman, Azumi is widely-traveled and has attended several leadership and development trainings to further equip herself for positive impact on her society. She studied at the University of Jos and holds a Bachelor of science degree in Public Administration.

AIR COMMODORE DOMINIC NWANDI DANAT

Dominic Nwandi Danat enlisted into the Nigerian military service in 1988 and has distinguished himself in his career. He rose through the ranks to the position of air commodore. He has attended several military and civil courses both locally and internationally. In the course of his military career, he has held several appointments responsible for staff and command as well as instructional positions with a track record of excellence. A seasoned logistician, he was a one-time Director of Logistics at the Nigerian Air Force Headquarters Abuja as well as the Director of Logistics at the Nigerian Defence Academy Kaduna.

Dominic is a man of very generous dimensions, with invaluable experience and knowledge of human capital development and welfare. These have contributed immensely to ALDA achieving its humanitarian goals in different areas.

Air Commodore DN Danat holds Post Graduate Diploma in Logistics and Supply Chain Man-

agement; and a Master of Science degree in Strategy, Security Defence, Conflict and Disaster Management.

PROFESSOR DAKAS C.J. DAKAS, PH.D, SAN

Dakas C. J. Dakas is a professor of Law, a Senior Advocate of Nigeria (SAN) and the Principal Partner, Professor Dakas C.J. Dakas, SAN & Co. He was formerly Dean of Law, University of Jos, a former Ben Nwabueze Distinguished Professor of Law at the Nigerian Institute of Advanced Legal Studies, Abuja, Nigeria, as well as the Director of Research of the institute. A former Attorney-General and Commissioner for Justice of Plateau State, he holds an LL.B (First Class Honours) degree as well as postgraduate law degrees, including a Ph.D, from renowned universities within and outside Nigeria; has been a Visiting Professor at

Canada's Osgoode Hall Law School, York University, and other prestigious institutions, and has received several meritorious awards for superlative academic performance.

A highly sought after speaker, Professor Dakas has presented over one hundred and fifty (150) papers on constitutional law, human rights, humanitarian law, international law, peace building and conflict resolution, building resilient communities and strengthening the security architecture in vulnerable communities, democratic policing, justice in transitional societies, election management, population dynamics, inter-ethnic and inter-faith dialogue and engagement, migration, refugees and IDPs, drugs and crime, corruption, economic and financial crimes, etc at workshops, roundtables, seminars and conferences, organised by several governmental and non-governmental organisations/institutions within and outside Nigeria. Outside Nigeria, Dakas has presented papers at conferences in the United States of America (USA); Canada; Italy; South Korea; etc.

He has had a distinguished public service career within and outside the academia and has been engaged in several national and international assignments. Additionally, he is widely consulted by governments, inter-governmental organizations and non-governmental organizations. Rated as one of Nigeria's Top 100 lawyers, Dakas has an enviable

track record of outstanding achievements as an academic, a legal practitioner, a mentor and a public servant and is highly respected and celebrated in the community of legal scholarship, public service, politics, policy and strategic engagement and praxis. ALDA Foundation has continued to tap from this reservoir of knowledge, especially as it relates to the legal requirements needed to thrive successfully.

PROFESSOR JOSIAH TURI MUTIHIR

Josiah Mutihir is a professor of Obstetrics and Gynecologist, with the Jos University Teaching Hospital (JUTH), an ardent scholar with vast experience and a medical expert of over three decades. He was formerly Chief Medical Director, Plateau State Hospitals Management Board, Plateau State.

Professor Mutihir has more than 65 publications in professional peer-reviewed journals to his credit. He also writes for the Nigeria Standard Newspapers of Plateau state on contemporary issues. He is a member of several professional associations including Planned Parenthood Federation of Nigeria (PPFN), Nigerian Medical Association (NMA); Society of Gynaecology and Obstetrics of Nigeria (SOGON); Fellow, West African College of Surgeons (WACS) and Fellow, International College of Surgeons (ICS).

In the long span of his medical career, Mutihir has collaborated with various non-governmental organizations; including Association for Voluntary Surgical Contraception (AVSC); United Nations Children Fund (UNICEF); Society for Family Health (SFH); Community Participation and Action in Social Services (COMPASS) Project; Strengthening Health Outcomes through the Private Sector (SHOPS) Project; Nigerian Urban Reproductive Health Initiative (NURHI); Marie Stoppes, Nigeria / Futures Group; Strengthening Health Outcomes through the Private Sector Plus (SHOPS-Plus) Project; Rotary International and Pathfinder International. Professor Mutihir is currently the Chairman, Voice for Family Planning and Reproductive Health (V4FP/RH), Plateau State. In addition to his crowded work schedule as a medical consultant, he is passionate about the

less-privileged and serves on the board of ALDA Foundation.

CHIEF ALEX NOEL WUKARI

A member of our appointed trustees, Chief Alex Wukari is a lifelong politician noted and respected for his political astuteness, foresight, fairness and ability to build bridges across diverse people irrespective of tribe and/or religion. He has a proven record of grassroots politics having worked successfully as a valued insider on numerous winning campaign processes. His ability to build strong partnerships across different sectors of the society has helped reposition Azumi Ladi Danat Foundation in a strategic direction to achieving the goals of the foundation.

Alex Wukari has also been a career business man and is the Chairman of Marksman Nigeria Ltd, a company with interests in transportation, civil construction and general business.

An avid sports man, he is now engaged in sports development as the current President of Mighty Jets International FC of Jos. He is currently studying for a Bachelor of Science degree in Public Administration at the Nasarawa State University, Keffi.

DR. MESHAK ALEX SIMEON DAYOL

Meshak Alex Simon Dayol is a dedicated member of our appointed trustees, whose generous contributions and wealth of experience have added value to the tasking needs of organizing medical outreaches and other programs. A product of the famous Boys' Secondary School, Gindiri, he bagged the Bachelor of Pharmacy (B. Pharm) degree and a Master's degree in clinical pharmacy (MSc. Clin. Pharm.) from the University of Jos and a Doctor of Pharmacy (PharmD) from the University of Benin. He is a fellow, West African Postgraduate College of Pharmacists (FPCPharm). He also obtained a certificate in Management of Drug Supplies from the University Limpopo. His career has largely been in hospital pharmacy practice. He worked as intern pharmacist at the National Orthopedic Hospital, Dala in Kano where he proceeded to the Federal Medical Center Gusau for the mandatory national youth service program. He had a brief stint of community pharmacy practice at different times with the defunct Pogma Pharmacy Ltd., Kubwa in Abuja and Lamed Pharmacy in Jos respectively. He left the community pharmacy practice setup and took up an appointment with the Plateau

State Specialist Hospital, Jos, where he has been working since 2002 and has risen to the rank of Director of Pharmaceutical Services. He is currently the Head of Pharmacy Department of the hospital.

He is a member of many associations, clubs and societies including Clinical Pharmacists Association of Nigeria (CPAN), Association of Hospital and Administrative Pharmacists of Nigeria (AHAPN), Pharmaceutical Society of Nigeria (PSN), Commonwealth Pharmaceutical Association (CPA), Ecumenical Pharmaceutical Network (EPN) among others. He is also a member of Rayfield Golf Club 1913, the oldest golf club in Nigeria. He is an alumnus of the Leadership and Management in Health program of the University of Washington, USA.

DR. YILJI CASHMIR KUMTAP

A driving force in Azumi Ladi Danat Foundation, Dr Yilji Cashmir Kumtap started his career as a medical officer at Our Lady of Apostles, Akwanga, Nasarawa state and has extensive experience from the several positions he has held including as registrar and senior registrar. Currently, Dr. Yilji Cashmir Kumtap, is a consultant cardiologist, with the Jos University Teaching Hospital (JUTH) Lamingo where he is responsible for supervision of resident doctors/interns, conducting echocardiography, ECG and advance life support for patients. His experience has enriched ALDA's operations especially as a principal coordinator of the team of medical practitioners to our outreaches as well as advising on medical and surgery-related procedures.

His over a decade medical practice involves delivering excellent patient care, facility profitability and health system strengthening as well as using proven patient care skills, multi-sectorial collaboration and networking to provide a positive, supporting health environment for citizens. He has actively participated in humanitarian work in different locations in Plateau state, by providing free medical services to help the indigent and vulnerable.

He is a member of several professional associations including Nigerian Medical Association, West African College of Physicians, Nigerian Cardiac Society, Society for Quality in Healthcare in Nigeria. Dr Kumtap is an alumnus of the University of Jos (MBBS), University of Washington (E-Learning), National Postgraduate Medical College of Nigeria (Fellowship), West African College of Physicians (Fellowship). He has handled different leadership roles and has attended several leadership education programs including Young Africa Leaders Initiative (YALI) Network.

People are central to development and every deserves respect

GOD

In God we trust.

Integrity

Doing what we say and saying what we do.

Legacy

Consciously working towards leaving a mark in the life of any person we come accros.

Progress

Daily moving forward to learn, give and serve more.

Teamwork

We are connected to one another especially in furthering the cause of humanity

Respect

We come from a place of respect... We treat all persons with well deserve respects.

WHO WE ARE

AZUMI LADI DANAT (ALDA) FOUNDATION is a humanitarian initiative committed to promoting human welfare. It was founded by businesswoman Azumi Ladi Danat whose passion is to give hope to the poor and needy by empowering orphans, vulnerable children and widows; to provide health care services, education, make advocacy on rape, drug use, women and child's rights and related issues. Our mission is implemented through our programmes, outreaches and activities which enable the Foundation to dignify its beneficiaries by focusing on health, education, empowerment and advocacy.

In central Nigeria where our presence is strong, the ongoing insecurity has further impoverished the dominantly agrarian families and communities.

We recognize that the indigent, vulnerable, widows and the needy can add value to themselves and to society if some of these barriers are cleared off their way. Therefore, our work is to give them a chance to make their lives more productive.

Our Focus Areas Goals, Objectives and SDG Link Up, Health, Education & Empowerment

- To work with spirited individuals, donors and experienced medical practitioners such as consultants, cardiologists, obstetrics and gynaecologists, ophthalmologists, paediatricians, epidemiologists, neurologists, pharmacists, lab scientists, nurses and surgeons and rendering special medical services to the indigents in central Nigeria.
- To execute programmes aimed at basic health care services (preventive and curative) including maternal health, child health, safe drinking water, hygienic sanitation, management of waste disposal, population welfare, immunization, etc. leading towards reduced mortality.
- To improve health conditions by providing basic health and hygiene education and services to the communities residing in neglected areas. To build and create awareness on malaria, TB and other infectious diseases in our communities. To enhance productive livelihood and well-being for people living with HIV/AIDS and their families.
- To eliminate drug and substance abuse through launching programmes aimed at rehabilitation of drug addicts
- To improve the socio-economic status of the rural and urban poor.
- To alleviate poverty and unemployment through youth and women empowerment
- To involve ourselves in the social empowerment of youths (orphans, street children) through community events such as capacity-building, youth trainings, and social activities which bring our youths and communities together.
- Creating avenue for advocacy for human rights, peaceful resolution of conflicts and sustain socio-economic development among the marginalized communities. To educate the deprived and under privilege common folk about their basic human rights.
- To advocate for a society whereby children and youth with disabilities have equal rights and opportunities for growth and development.
- Improved access to education and psycho-social well-being of marginalized children and youth.

To achieve its goal and objectives, ALDA Foundation's intervention generally focuses on the following areas:

1. Education
2. Health, Sanitation & Nutrition
3. Drug Addict Prevention and Rehabilitation
4. STD/ HIV/AIDS Prevention
5. Child & Gender Development
6. Advocacy, Human Rights & Good Governance
7. Creating opportunities for Persons Living with Disability (PLWD)
8. Career Counselling
9. Providing opportunities for Orphans, Vulnerable Children and widows

These 9 areas are addressed under three main programs:

HEALTH

Health support is key to the Foundation's work. We aim is to deliver good health care services for the vulnerable, orphans, widows and less privileged in communities where we operate. This mission is linked to Goal 3 of the SDGs.

By this intervention we seek to address health concerns through:

- Periodic and free medical check-ups and outreaches
- Awareness and precaution measures related to malaria, HIV, TB, hepatitis, reproductive health and sexual rights.
- Child health and nutrition related programs
- Develop immunization programs for venereal diseases and epidemics
- Organizing events for public health in collaboration with government
- Outreaches- reaching out to those in need of medical and necessities such as food items and clothing
- Distribution of Medical aid and supplies, to primary health care's centres, in the rural areas visited.

We do this because we understand that healthy people can be more productive to themselves and to society.

LIVELIHOOD SUPPORT

Under this scheme we seek to empower our beneficiaries to generate more income. This ties in with the mission of Goals 1 and Goal 8 (Decent work and economic growth). We focus on vocational education and skills development. This will empower our beneficiaries to live more financially stable lives. Other forms of livelihood support include:

- youth empowerment where we create youth support groups to address problems such as drug use, crime teenage pregnancy, unemployment, HIV/AIDS affecting the youth population of communities where we operate
- women empowerment
- Job creations – job opportunities are created if non-governmental organizations including **ALDA Foundation** continuously engage of both experts and technical support staff for humanitarian outreaches.

EDUCATION

- child education and development
- vocational training
- scholarship. Currently, there are 18 students under ALDA scholarship. Among them are orphans and vulnerable children
- career guidance and seminars

OUR STRATEGY

Our approach is adapted to suit our core values and our target audience who are less-privileged.

Community mobilization

To implement our programs and outreaches, our first step is to mobilize the community to raise awareness on health, hygiene and nutrition. We meet with local authorities, community members, conduct training/capacity building sessions and launch campaigns. To achieve our education support program, at donor's request we connect the potential sponsors with schools so they can directly sponsor a beneficiaries' education.

Use of voluntary service from both local and international volunteers.

Capacity building of community-based groups, women groups, youth groups, and people with disability groups.

Linkages and collaboration with various stakeholders, Civil Society Organizations, NGO and government departments.

House hold-centered approaches that link OVC services with HIV-affected families and strengthening community structures which protect and promote healthy child development such as churches, child area advisory councils/ committees

Social support including vocational training, income generating activities, social & legal protection and prevention services including positive behavior counseling.

Sustaining relationships with our beneficiaries by giving them the utmost attention through some of our partners who are medical experts, for both the treatment and post-treatment reviews.

TEAM of volunteers

Meet like-minded people impacting lives through ALDA Foundation. Our volunteers are key to our results. They come from different walks of life to play different volunteer roles - from message delivery, mobilization, logistics, physical involvement. These heroes, disguised as ordinary people, tell you a little about what inspires them to volunteer their time to us.

KATLONG

Katlong is a pharmacist, his first and major role is the dispensing of drugs during the medical outreach. He has also been involved in drug forecasting, drug procurement and drug use analysis and prescription of drugs for patients when the need arises. He has helped in coordinating the activities of the pharmacy unit.

To Katlong, 'volunteering is my own little way of giving back to the community, and also to show appreciation to God for bringing me from a very long way'.

He was 'inspired by the passion of the founder, and other members of the Foundation' to 'get involved in putting a smile on the faces of people in our community'. He remembers his sense of fulfilment: 'I enjoy the smiles on the faces of the communities we are attending to, their gratitude to us for reaching out to them at the point of their needs, the beautiful atmosphere of unity and camaraderie amongst all the members of the team and the entire foundation, and the leadership and motherly role of the founder.'

He learnt lessons getting involved: 'I have learnt that sacrifice is also an act of service to God. I have learnt that alone, we can do so little, but together we can do so much more. Finally, what we do for ourselves, dies with us, but what we do for others and the world, remains and is immortal.'

The entire [Kagu 2021] outreach was unforgettable for me. It was a massive crowd that turned out to receive help and care. I also enjoyed the evening conversations with colleagues, sharing experiences and learning from one another.

VICAR YANEH

"Mrs Danat spoke to me about volunteering in the Foundation's outreach. Her commitment and desire to see people helped, motivated me. For the outreach, I helped distribute letters and I should physically present in subsequent activities to help in contributing and distributing to the less privileged. Volunteering to ALDA means so much to me. It means I am, in this medium, contributing to humanity through my act of service, giving joy to people I help. A key lesson I have learnt volunteering is, you don't need to have everything to give something. With little, you can still reach out and change lives. Also, I feel joy being the reason some sad faces will smile.

ROPZAK

"I was introduced to the Foundation through a senior colleague, a medical doctor. Offering free consultation to help those in critical need has given me joy. It is an opportunity to render service to humanity, to pay back to the community".

NANSHIN

“Mrs Azumi Ladi Danat’s passion for the less privilege, destitute, widow’s and the orphans in the society especially her immediate community inspired me to get involved as a volunteer in ALDA. My role in the outreaches is to educate the audience on health, personal hygiene, nutrition and dispensing of drugs. I enjoyed my duty as a volunteer especially being appreciated by those that benefited from our services (less-privileged, orphans and widow’s etc).

Good interpersonal relationships skills. How to collaborate with other health agencies to help those in need.to understand what the less privileged, destitute widows and orphans are going through. I have learnt a lot from the sacrifice of the founder Mrs Azumi Ladi Danat (CEO). She uses her lean resources with outside donations to organize the outreach.”

AMOS DAYANG

“I was pushed to get involved because of the empathetic concerns for humanity. As a volunteer, I rendered free services by ensuring that all available supports reached the beneficiaries as possible.” He feels joy and happiness getting involved.

Amos is no stranger to the Foundation. “ALDA means a lot to me, especially seeing how they meet the needs of other vulnerable people, giving hope to the hopeless and the leadership experience”.

Volunteering comes with gains too. “My most key lesson is or are, sacrifice for others care for the less privileged and the vulnerable and giving back to the society ever possible.”

Long after he has left the outreach community, his mind pictures the scenes clear enough. “The whole experiences are unforgettable as clinics round communities are equipped after medical outreaches, secondary educational scholarship as well as child abuse and girl child education to mention just a few.

His key takeaway on volunteering: “In all aspects of life there are always challenges ranging from funding and personnel hopefully will be better.”

What We Do -Area of Operation and Target Group

Influenced by the development paradigm that people matter more than things, we seek to create measurable impact across target communities in central Nigeria. Our target group is the reason we operate. In this category are orphans, vulnerable children, people living with HIV and AIDS, people with disabilities, widows and the less privileged. These people are found in rural and urban centres alike.

PROGRAMS

At the heart of our activities and outreaches is the philosophy that we rise by lifting others and people matter more than things. Based on this belief, we are currently engaged in three programmes in the areas of health, empowerment and education. Our programmes are designed to dignify the life of our individual beneficiaries. The programs to advance our goals include:

- **outreach programs**
- **youth empowerment and development plan**
- **career guidance**
- **access to opportunities**
- **leadership programs**

Programs and activities undertaken so far

- a. Free medical outreach
- b. Empowerment
- c. Education
- d. Rehabilitation of PLWD

THE GIRL CHILD PLIGHT IN NIGERIA

Nigeria as an independent entity is undoubtedly characterized by very harsh economic conditions. This has resulted into scarce resources. As a result of this, choice has to be made between whom to send to school. Most often, it is the girl-child that remains at home. And is so her life is filled with a lot of uncertainty

Access to health care in rural communities of Pankshin Local Government Area (LGA) as in many communities in Nigeria, is disturbingly poor. This is resultant from a myriad of challenges faced including poor funding, low human capacity, inavailability of work equipment, and in some situations, the high cost of out of pocket expense for community members who can bare afford self sustainance. Our annual outreaches has created an opportunity for us to target one community at a time and provide humanitarian aid, medical services and counselling to people within and in close proximity to the communities of implementation. One of such was the outreach to Kagu community in January 2022, which facilitated the distribution of relief items inuding food and non food items (wrappers,

OUR PORTFOLIO

shoes etc) to households and medical aid items (wheel chairs, walking sticks, eye glasses, drugs and medical services) to community members. Through the conduct of the outreach 12 eye surgeries were conducted. One of the beneficiaries Mrs Nater (not her real name) who had been experiencing hazy visions that made active farming difficult for her had her eyes operated upon during the outreach. 4 months down the line she was excited to testify of how this outreach has impacted her, improving her human dignity as she is now able to return to her farming without waiting to be supported.

TESTIMONIAL

“Azumi Ladi Danat Foundation was birthed through sheer passion for the less-privileged and those with health challenges. Mrs Danat is a lady with a very kind heart who is ready and willing to assist the less-privileged with all resources available at her disposal. She has touched many lives by carrying out several outreaches and visiting many orphanages in different states where gifts and donations of various kinds were given out. With this passion and adequate support, many will benefit from her great benevolence in the years to come God sparing our lives.”

Mwantok Danladi Garba

MD/CEO, Naanalong Global Nigeria Limited

Well done!

The Foundation’s assistance to the beneficiaries is commendable. I was privileged to have been a member of the medical team that participated in the free medical outreach sponsored by ALDA Foundation a year ago. The services couldn’t have been offered at a better time. Seeing the smiles and hope on the faces of those we attended to, I was touched and understood better the importance of reaching out to the needy in the society. I am always available to volunteer for the outreaches and other programs of the Foundation.

Thank you, ALDA Foundation!

Nanribet Byangshak, Medical Volunteer

Thanks a million!

We received free medical service from the Foundation a year ago and I just want to say how thankful we are of all your help. It’s because of you my grandpa is cured of his blurring glaucoma and sees clearly again. My family and I remain forever grateful for your support to us. Thanks a million!

I pray God to bless the founder of ALDA Foundation as she continually puts smiles on the faces of the less-privileged.

PlangNan, beneficiary

Thank you!

We thank the ALDA Foundation for their generosity to the less-privileged women in Kagu villages of Pankshin LGA of Plateau State. We are humbled by the generosity of the Foundation and their continued help to the less-privileged members of our communities. Words will never express the gratitude we feel for this amazing gift of wrappers,

clothing and footwears from ALDA Foundation.

Katlong, beneficiary

Appreciation!

We appreciate you for the effort you made during the last health outreach at our communities in Pankshin South Local Government Area, Plateau state. Since the outreach, there has been a great improvement on the health of the people especially those who underwent minor surgeries and other procedures. The medical devices you distributed such as wheelchairs, walking aids, medicated contact lenses, etc. help our people greatly.

Your Foundation has been able to do this medical outreach differently with great impact to our people's lives as compared to other similar events in the pass. I believe this is so because of the efforts you made during the pre-medical outreach period to have an idea of the community challenges. We are proud of you and the entire organization for making this great achievement.

Finally, we appreciate your excellent performance and the great sacrifice you have made. We sincerely hope that you will get more support to continue this kind gesture to other communities nationwide and beyond.

Pharm Da'ap P. Ignatius, CEO, D-CareMed Pharmacy & Stores

“Azumi Ladi Danat Foundation was birthed through sheer passion for the less-privileged and those with health challenges. Mrs Danat is a lady with a very kind heart who is ready and willing to assist the less-privileged with all resources available at her disposal. She has touched many lives by carrying out several outreaches and visiting many orphanages in different states where gifts and donations of various kinds were given out.

With this passion and adequate support, many will benefit from her great benevolence in the years to come God sparing our lives.”

COMMUNITY STAKEHOLDERS Briefing ALDA FOUNDATION of the impact of the foundation on the community

JIBLIK MEDICAL OUTREACH ON THE PLATEAU

There was a great jubilation when the medical team arrived the different venues for the medical outreach. ALDA Foundatio led by the CEO took the initiative to divide the medical team into three groups to enable it cover the three communities earmarked for the program which included Lankan, Asa (which was stationed in Akong) and Jiblik. Each of the teams had different sections of the medical profession such as Surgeons, Opticians, Ophthalmologists Pharmacists, Lab Technicians/ Lab Scientists, Nurses, Records and Attendants whom are all professionals in there respective fields.

The community people, in their thousands marveled at the consultations, treatment and surgeries.

The Foundation was able to conduct 130 surgeries which included Myomectomy, Appen-dectomy, Lumpectomy, Cystectomy, Ganglion Excision, Herniorrhaphy, Hydrocoelectomy etc.

It also distributed 500 pairs of glasses and treated 600 eye patients who also received eye-drops. Also, eye surgeries were performed on 100 people. In addition, the Foundation was able to treat 4000 people in all the centers for Malaria and 3000 people for Typhoid in Lan-kan, Asa and Jiblik centers. HBsg and HCV test were carried out on 3550 people in all the centers, 150 were reactive and were treated. The non reactive people were admonished and advised to take vaccine. Due to the vulnerability of the communities, 3000 people were treated for Infection in the centers.

The Foundation did not only stop at a medical outreach but also looked into different aspects of life of the people in the community as it is no longer news that hunger these days kills faster than some sicknesses. The Foundation donated 10 bags of grains and some packs of seasoning to some of the communities. It also gave out 400 wrappers to the aged. The people living with disability went home smiling with wheelchairs, Walking Frames, Crutches and Walking sticks as the Foundation gave out 300 wheelchairs, 100 walking frames, 150 crutches and 50 walking sticks to the individuals. The communities went into tears of joy as

it was expressed by some beneficiaries who testified that this was the first of its kind in their communities. They wish they had more people with such a kind heart to reach to their aid. People in their numbers came from far and near for this show of benevolence. A woman in one of the centers who had given up on her life testified that she had gone places looking for financial assistance for her ailment but the ALDA Foundation came to her rescue by performing the surgery on her without collecting a dime during the free medical outreach. She prayed in tears that the CEO, the team and the foundation shall keep on succeeding and going into different places to assist the less privileged. The Foundation also looked into the security aspects of the communities which necessitated it to distribute 1000 pairs of boots to the professional hunters and vigilantes to help them secure the land better.

The medical and media teams were well catered for, by the CEO from the 4th of January 2024

PARTNERSHIP OPPORTUNITIES

Partnerships for Success – Get Involved Today!

BENEFITS TO DONORS AND PARTNERS

Changing people's lives comes with a sense of fulfilment. Aside making a mark on society, donors and partners of ALDA Foundation will also share in the following benefits:

- Acknowledgment of sponsorship or partnership in ALDA Foundation's periodic publications
 - Promotion of corporate sponsors and partners through media channels
 - Promotion of services and patronage of goods offered and sold by our corporate partners.
 - Representation of donors', partners' organisational image as progressive and humanitarian.
 - Most importantly, the benefit of investing in ALDA guarantees that all beneficiaries of our programs will contribute in different quotas to all members of society –our donors and partner organisations inclusive.
- Remember, as we change their lives, we are changing our world.

WHAT MAKES US UNIQUE?

ALDA Foundation is a humanitarian initiative for the orphans, vulnerable children, widows and the less privileged. We believe in the capacity of people living to their fullest dreams, if they are given the chance. We are open to partnership and collaboration with likeminded persons and organizations who may help fulfil the Foundation's vision, purpose and objectives in health, hygiene and nutrition support, livelihood support, education, youth development, women empowerment and the well-being of children. When you partner with us, you can expect the following from us:

DONATE AND COLLABORATE IN OUR ACTIVITIES AND OUTREACHES

Our partners and volunteers are the backbone for fulfilling our mission and achieving our goals. Through your inspiring commitment to the vision of ALDA Foundation, your help and support, we are able to impact communities by dignifying people.

Incorporated Trust Number: CAC/IT/NO 139050

GTBank Number: 0641385963

“If you can’t help a thousand,
you can help a hundred;
if you can’t help a hundred,
you can help even one person close to you.
Your kind gesture can be the reason someone will smile.
By all means, be the reason someone’s dream will come true.”

Azumi Ladi Danat

COLLABORATE with ALDA FOUNDATION

Azumi Ladi Danat Foundation believes basic needs people in communities face are best addressed through partnership and collaboration.

The Foundation develops approaches with ripple effect results.

You can collaborate with us in any of these ways:

- By uniting with us to raise health, hygiene and nutrition awareness and work for HIV/AIDS, malaria prevention in communities.
- By collaborating in our efforts for addressing people's basic needs through volunteering, becoming a member, writing for us, providing us your opinion or expertise and or working with us in our outreaches.
- By supporting, in cash or in kind, events and outreaches organized by ALDA Foundation.
- By selecting any of our programs to directly support our beneficiaries in the following program areas:
 - School Sponsorship
 - Computers
 - Stationery
- Giving seedlings and other agro resources to farmers in communities where we operate. It could mean encouraging farmers to venture into production of other produce.

ALDA FOUNDATION's efforts in the field of development, poverty alleviation, education, health care, have definitely created a positive impact in the project areas. With you, we can do far better.
